Budget DataMart

How to Configure Internet Explorer 8 for the Hyperion Web Client
This Guide is to be used with computers that are:
• Using Internet Explorer (IE) 8
• Windows7 operating system

To Begin, please open IE8 to the BDM homepage

WWW.BDMHYPERION.UCONN.EDU

Confirm or changing the settings
• Open Internet Explorer (IE8)
• From the menu bar select Tools/Internet Options

The following screen will appear....
Internet Options – Security Tab

- Select the Security tab.

- Select the Trusted site icon

- Click on the Site button

The following screen will appear...

Confirm the following Websites are in your Trusted sites:

- [https://hyperion.uconn.edu](https://hyperion.uconn.edu)
- [https://login.uconn.edu](https://login.uconn.edu)

As well as:

- The “Requires server verification (https:) for all sites in this zone” is deselected (unchecked).

- Click the Close button
Internet Options – Privacy Tab
Select the Internet Options Privacy tab. The following screen will appear....

- Confirm that the Turn on Pop-up Blocker box is checked ✔
- Click on the Settings button

The following screen will appear....
- In the box “Address of website to allow” Enter https://hyperion.uconn.edu
- Click the Add button

Close the dialog box
- Select OK to complete the Internet Options changes

Close and re-open Internet Explorer, this will ensure that all of the above changes have been applied correctly.
